Number of Years in Early Education

Mrs. Elizabeth has extensive experience working with preschool and school age children. Originally, she planned to become a pre-medical student, but she soon discovered that her true calling was teaching children. For her this is not a job, but a great source of satisfaction seeing children learn, grow, and develop their skills. Each year, she strives to understand each child's individual needs and in doing so, she creates a classroom environment where she believes they can grow and explore the world around them. She continues taking courses to enrich her early childhood background and to enhance her skills in the classroom. After so many years in the field, she says, "I've learned that laying a strong and solid foundation from an early age will help build a more confident student and I hope that I will be a small part of their future accomplishments."

**Quality Counts would like to recognize and thank Mrs. Elizabeth Cohen DeSocarras for her commitment to quality early childhood education!**
