Number of Years in Early
Education

Mrs. Yacquelinne Arenas' drive and eagerness to grow in the field of early childhood education came as a surprise to her during her transitioned move to the United States. In her native country, Mrs. Yacquelinne attained a Bachelor level degree in Human Resource Management. What at first seemed like a daunting career change, turned into her true calling. Her focus on each child's development is something she has a natural talent for; this is something she has since dedicated her time to master. Within the past three years, Mrs. Yacquelinne has put forth maximum effort to, not only use all the tools at her disposal, but to learn more about being an early childhood educator. She is currently enrolled in a post-graduate degree program that consists of 18 credit courses in child care, and she has used her newly acquired skills to inspire her colleagues to follow her path. Mrs. Yacquelinne's passion reflects her hard work and loving care for every child.

**Quality Counts would like to recognize and thank
Mrs. Yacquelinne Arenas for her commitment to quality early
childhood education!**
